The Easiest Songbook for Kalimba. 65 Songs without Musical Notes Helen Winter, We call this series "I don't read music" since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. This songbook includes 65 familiar and easy-to-play songs and melodies. Most songs have been simplified and transposed for one octave. So the songbook is suitable even for a diatonic 8-note kalimba in C-scale, and 10- or 17-note as well. Since this book is aimed at the absolute beginner without any knowledge of reading music, we do not use here the classical music staff and do not show the note duration. You can experiment with the duration on your own. We recommend finding each of these songs on YouTube and listening to the rhythm before beginning to play. Our sheet music is only a guide. The most important thing is to listen and repeat the recordings. If you are a beginner, playing by note can be difficult. It is easier to follow number-coded circles in this songbook. By simply following the numbers, you will sound like an experienced musician. Tongue Drum Songbook for Beginner Helen Winter, The steel tongue drum (aka tong drum, tank drum, gluck-o-phone, hapi drum, mandala or lotus drum) and the handpan (aka hank drum, UFO drum, zen drum) are percussion musical instruments designed to help you focus on your feelings, sensations, and body. You don't need classical music training or knowledge of music theory to play them. The main purpose is relaxation, meditation, and traveling through your inner world. No previous training or skills are necessary to enjoy these fascinating instruments. It is impossible to play them incorrectly. Anyone can play them: those who want to develop a good sense of rhythm and an ear for music, those who are seeking relaxation after a hard day at work, those who have always had an interest in learning how to play a musical instrument, and those who want to introduce something unusual into their lives and explore their inner selves. This book is aimed at those who want to add popular melodies to their experimentation. All songs in this book have been written without using the classic music score system, because it is for absolute beginners who cannot read sheet music. We use circles with numbers because most modern tongue drums have numbers engraved or painted on their keys. We do not show the note duration -- we just group the circles closer to each other to show the rhythms. You can experiment with duration on your own. Because most tongue drums include and are tuned to involve the notes of the main octave, all songs from this book are possible to play in one octave. This book includes very simple, popular children's and folk songs, but even well-known children's songs played on the drum will create an unusual magical sound. Attention: Songs have been transposed for a DIATONIC range. Some melodies might be changed and simplified. If you have flat keys on your instrument, please use the classic music score for the piano.
